

Deliverable Report

HEI Project	
HEI Project Name:	NOBALIS
HEI Project start date:	01.07.2022
Deliverable	
Title:	Idea Bank: Interim report.
Deliverable No.:	5.3.1
Type of Deliverable:	DEC
Authors:	Estonian University of Life Sciences
Level of completion (0 – 100)	100%
Delivery date (due):	31.12.2022
Due deliverable (actual):	30.12.2022
Dissemination level:	PU

1. Executive Summary

The present document presents an interim version of the NOBALIS Idea Bank. As specified in the NOBALIS project application, the first version of NOBALIS Idea Bank was due at the end of Phase 1 (M6) and the final version in the form of deliverable D5.3. Idea Bank is due in June 2024 (M24). NOBALIS Idea Bank is part of WP5. Communication and Dissemination activities that focus on supporting the creation of partnerships with innovation ecosystem stakeholders and long term transferability and dissemination of project results.

In NOBALIS project the Idea Bank refers to a publicly available resource consisting of structured summaries describing NOBALIS partners' various partnership activities related to teaching innovation and entrepreneurship, research and support activities. The partnership activities refer to formal and informal collaboration activities, events, platforms with external innovation ecosystem stakeholders that facilitate innovation and entrepreneurship activities in partner HEIs. Good practices refer to practices that have been proven to provide good results in the real-life context.

The overall aim of NOBALIS Idea Bank is to share good practices on innovation and entrepreneurship related partnership activities and provide it in a format in which this knowledge is easily transferred and implemented in other HEIs.

The Idea Bank is made available through project website (nobalis.eu) and updated throughout the project.

In the Phase 1 (June – December 2022) following activities were implemented:

- Creation of preliminary concept for the Idea Bank
- First round of mapping of practices of NOBALIS partners
- Analysis of practices and selection of good practices for publication
- Creation of preliminary Idea Bank on nobalis.eu website
- Publication of interim report on the Idea Bank

The mapping of the good practices was done with a template (Annex 2) in which NOBALIS partners were asked to summarize their various partnership activities. The first version of Idea Bank published at <https://nobalis.eu/index.php/idea-bank/> contains 12 examples from 5 HEIs (Annex 1). Those include 3 networking brunch or lunch meetings with innovation ecosystem stakeholders, an innovation day and

Innovation Capacity Building for Higher Education

A body of the European Union

student internship fair, webinar series with innovation ecosystem stakeholders, 4 examples of teaching with collaboration and input of ecosystem stakeholders, a license bank, strategic partnership with industry.

The Idea Bank will be updated in the Phase 2 (January 2023- June 2024).
